PEACE TREATY NOT IN SENATE UNTIL NEXT WEEK

Foreign Relations Committee Reports Back Without Debate.

TREATY AND RESERVATIONS CAN BE DISCUSSED FREELY

No Restrictions Or Limitations On Time For Debate.

Washington, Feb. 10.—The peace treaty, referred to the senate foreign relations committee yesterday to technically rid it of cloture was reported back today by the committee without debate and without a record vote. Republican and Democratic leaders agreed, however, not to take it up in the senate until next week. The committee's action was entirely perfunctory, the senate having given instructions that the treaty be reported out immediately together with the Republican reservations adopted at the last session of congress.

The parliamentary result is to bring the treaty and the reservations again into a status where amendments to either can be offered and discussed without any limitation on debate.

The peace treaty was back in the hands of the foreign relations committee today and it probably will not be returned to the senate floor until next week.

The committee was expected to act today on the instructions of the senate to report the treaty out with the reservations drafted by the Republicans at the last session of congress. Senator Lodge of Massachusetts, Republican leader plans, however, to defer further consideration of the treaty to make way for appropriations and tariff legislation.

When the treaty comes back to the senate with the reservations, Republican leaders, it was understood are prepared to propose modifications to the reservations similar to those drawn up at the recent bipartisan conference. This would open discussion for compromise, it is pointed out, although the possibility of ratification is considered by both sides a long way off.

BURNS OF GIANTS DOES NOT SIGN CONTRACT

Little Falls, N. Y., Feb. 10.—George Burns, left fielder of the New York Giants, announced today that he had returned his contract unsigned. He said he had been offered an increase in salary but that he did not consider it sufficient.

MRS. PATTERSON FEARS GUN PLAY

Accuses Wise of Carrying Weapon—Unusual Opening Marks Case of Ohio Vs. Rolla Craig.

There was a sensational scene in the court room this morning just before the case of The State of Ohio vs. Rolla Craig, alias Rolla Patterson, accused. Mrs. Nanny Patterson accused John Wise of having a revolver concealed about his person.

Mrs. Wise then accused Mrs. Patterson and Rolla Patterson of having guns upon them and Sheriff A. E. Egan and Deputy William Santachi were called to take the people in charge and they were searched in the sheriff's office. Nothing of an incriminating nature was found upon any of them.

Craig was indicted for rape and owing to the indisposition of the counsel for the defense an entry was made continuing the case until the April term of court.

The case grew out of the death of the daughter of Wise, who died under unusual circumstances.

AMERICAN LEAGUE FIGHT CONTINUES

Chicago, Feb. 10.—A continuation of the American League factional fight that might prove second in interest only to the possible selection tomorrow of a successor to August Herrmann as chairman of the National Baseball Commission was in prospect here today when the American and National Leagues went into their annual sessions.

The meeting of the older organization, apparently would be short, as there was little work to be accomplished aside from adopting the schedule for the coming season.

Three other leagues the American Association, Three Eye and Western—also were in session today as a part of Chicago's "biggest baseball meeting."

So far only informal talk apparently has been indulged in regarding a new national commission chairman. No man seemed to stand out as the most likely winner.

The Western League met today to prepare a schedule. The American Association yesterday adopted a 158 game schedule and the Three Eye League was expanded from a six to an eight club league.

At the major leagues rules committee meeting yesterday break pitching was abolished, with the exception of the spit ball, that being permitted to remain another year to be accomplished under conditions. A number of other changes were made in the rules, but probably the most important was that allowing a home run to a batter any time he hits the ball out of the field of play.

WILSON RECEIVES MESSAGE FROM CROWN PRINCE

Washington, Feb. 10.—The former German Crown Prince has cabled President Wilson offering to surrender himself for trial if the allied governments insist. The message was in President Wilson's hands today.

White House officials admitted that the message sent from Wieringen, Holland had been received but would not make public its text.

ENLISTED MEN GOT FAIR AWARD

Statistics Show They Were Given 63 Per Cent of Medals Bestowed In World War.

Washington, Feb. 10.—Enlisted men of the army received 63 per cent of the medals awarded for service in the world war, it is shown in statistics made public today by the war department.

To enlisted men went 57 out of the total of 78 congressional medals of honor awarded while 353 out of the 5109 distinguished service crosses conferred were given to enlisted men. All of the 641 distinguished service medals awarded for meritorious conduct and not for acts of valor were conferred on officers.

The 13th division, which with the 27th division broke the famous Hindenburg line, received 13 medals of honor, or 15 per cent of the total of those decorations awarded.

GOVERNMENT IN CATTLE BREEDING BUSINESS

Washington, Feb. 10.—The war department, generally associated in the public mind with guns, munitions and the implements of warfare, is going to take up cattle breeding.

Through its bureau of insular affairs, the department has purchased in Texas 100 Herford bulls and 20 Herford heifers for breeding into the stock of Philippine Zebu cows. The Herfords will be forwarded soon.

JOHNSON LETTER ARRIVED TODAY

Was Written Jan. 12 by the Late F. L. Johnson as He Was Leaving for Aleppo—Wife Seemingly Accompanied Him on Trip.

The Advocate last evening received a telegram from C. V. Hibbard, secretary of the international committee of the Y. M. C. A. at national headquarters in New York City, stating that there were no further details regarding the murder of Frank L. Johnson, former secretary of the local Y. M. C. A., which occurred on the morning of February 2, near Antioch, Syria.

In telegrams to Secretary Lender of the Y. M. C. A. and Attorney A. S. Mitchell, legal representative of Mr. Johnson, Hibbard stated that he had sent a wireless asking for full information and that he had also called Mrs. Johnson at her address. He promised further information upon its receipt by him.

According to a letter written January 12 to Mr. C. H. Spencer and received today from Mr. Johnson he and his wife had left Constantinople and started on their way to India. They had arrived at Kona, Asia Minor, they were awaiting a train on to Aleppo, it is further stated, in a few miles of which place the Newark man was murdered, just three weeks after receiving the letter.

They had written orders to delay until April 1 and April 1.

In his letter Mr. Johnson said: "Mrs. Johnson and I leave tonight for Adana, where we stop for a day or so, awaiting a train on to Aleppo, from whence we go to Antioch, further north, and with 'we have had fairly good train accommodations so far but now our troubles start.'"

As the incident which resulted in Mr. Johnson's death is reported as near Aleppo, it would seem that Mrs. Johnson had accompanied her husband on the fatal trip.

OFFICIALLY INVESTIGATE

JOHNSON'S DEATH

Washington, Feb. 10.—Rear Admiral Bristol, American high commissioner at Constantinople, has begun an investigation of the recent murder in Syria of Frank L. Johnson, of Newark, Ohio, and another American citizen, both representatives of the Y. M. C. A. who were conveying a relief supply expedition under the auspices of the American commission for the relief of the near east.

Besides sending assistant high commissioner Engert to Antioch, to investigate the murder, he has also demanded to the Turkish government to make an immediate inquiry with a view to the apprehension and punishment of the murderers and has asked the French high commissioner at Constantinople to render assistance in the efforts to recover the bodies of the Americans.

CONTESTANTS FOR OLYMPIC GAMES COMPETE TONIGHT

New York, Feb. 10.—Probable Olympic games representatives will compete tonight in the annual indoor games at Madison Square Garden. The Ray of the Illinois A. C. will have as competitors in the 12 mile special, Gordon Nightingale, New Hampshire State College; Jimmy Connelly, Boston; A. A. Greig, Princeton; and Antole John the Swedish middle distance champion.

Homer Baker and Mike Devanny are entered in the three mile event while the 600 yard special will bring together Dave Caldwell, Boston; A. A. Tom Campbell, Yale; Percy Ely, Pennsylvania; Jack Sellers and Jimmy O'Brien of New York.

CROWN PRINCE OFFERS HIMSELF TO FREE OTHERS

Amsterdam Publishes Telegram Supposedly Sent By Him.

ADDRESSED TO PRESIDENTS AND KINGS OF ALLIES

Asks They Take Him As a Victim Instead of 900 Other Germans.

Amsterdam, Feb. 10.—Former Crown Prince Frederick William of Germany has offered to give himself up to the allies in place of the hundreds of Germans demanded for extradition on the list recently submitted to Berlin, according to a telegram purporting to have come from him published in the Handelsblad of this city.

The telegram addressed to the Kings of England, Belgium and Italy, the Presidents of France and the United States and the Emperor of Japan says: "As the crown prince I wish to take the place of my countrymen. If the allied and associated governments desire a victim let them take me instead of the 900 Germans who committed no other crimes than to serve their country in war."

GERMANS TO SUPPORT GOVERNMENT'S STAND

Berlin, Monday, Feb. 9.—Decision was reached by the committee on foreign relations of the Reichstag today to support the government's stand in declaring "the ethical and patriotic indignation of the German people at the allied demand for extradition of German accused criminals." It is such that the carrying out of extradition measures have been made physically impossible and would produce internal unrest.

Independent Socialist members refused to subscribe to this declaration which was adopted at the meeting of the committee which lasted for three hours this afternoon.

The government has decided to submit the official extradition list to the first attorney general at Leipzig with instructions to investigate the offenses listed and determine whether the charges made by the allies can be punished under German criminal or civil codes. He will also be asked to determine to what extent these charges trespass upon the rules of warfare.

It is presumed that the attorney general will proceed upon the ground that the allied list presents material evidence against German subjects and may prosecute the accused in the same manner as if the charges had been filed in any other way.

WILSON'S ADVICE IS TURNED DOWN

Democrats at Party Caucus Vote Against Measure Providing For Compulsory Military Training.

Washington, Feb. 10.—Democrats of the house were on record today as opposed to universal military training, despite an appeal from President Wilson that they refrain from declaring themselves on the issue until the Democratic national convention in June.

The action was taken at the party caucus last night when the house Democrats voted 104 to 17 against any measure providing for universal compulsory military service or training.

Earlier in the session the Democrats flatly rejected the President's appeal by voting 88 to 37 against a proposal that action on the measure be deferred.

Explaining their action at the caucus several Democrats declared that they felt that they were not ready to take the country on military training better than either the President or their leaders.

Representative Caldwell, New York, who led the fight in favor of the President's proposal declared that unless there is a change in sentiment on the Democratic side of the house it is apparent there are not enough Republicans who favor universal training to include it in the army reorganization bill.

SMALL FIRE AT AM. TRUCK WORKS

All divisions of the fire department answered a call to the American Motor Truck company plant at 16th street this morning at 12:15. The fire broke out from the heating of a couple of barrels of tar which were to be used on the roof of one of the buildings.

The fire was quickly extinguished and there was no loss.

LEXINGTON RIOTS SUBSIDED TODAY

One of Wounded Dies from Injury—Soldiers from Camp Taylor Have Town Under Military Control.

Lexington, Ky., Feb. 10.—Dawn today found Lexington an armed camp. Squads of armed soldiers who saw service at Chateau Thierry were patrolling the streets or guarding all approaches to the city to prevent a recurrence of yesterday's bloody mob violence that cost the lives of five persons and caused injury to a score of others.

William Lockett, negro slayer of ten year old Geneva Hardman, a school girl, was confined in a steel cage in the Fayette county court house here, awaiting removal either to the state reformatory at Frankfort or to the prison at Eddyville.

Squads of soldiers who had been on duty all night reported this morning at the court house, where Brigadier General Marshall had established headquarters since the patrols were established.

During the forenoon plans were made by the military authorities to maintain custody of the negro.

"If he is released," said Brigadier General Marshall, "early today, Lockett will be safe to take him away, either to Frankfort or to Eddyville. That may be within 24 hours or it may be a week."

General Marshall reiterated that he had sufficient force to cope with any disorder but regarded the possibility of further rioting remote.

General Marshall announced during the forenoon that the situation was so well in hand that about 200 men of the first division would be returned to Camp Taylor. Arrangements were made to move them late today. The 75 members of the state troops which repulsed the mob yesterday also were preparing to entrain for Latonia.

Another interesting announcement during the forenoon was that of Commissioner of the National Guard, John R. Allen, that no prosecution of members of the mob was contemplated by the authorities.

Business was being conducted as usual here today, despite the presence of the troops.

Death last night of J. M. Rogers, 61, a farmer of near Versailles, Woodford county, shot during the rioting, brought the death toll to five.

Major General C. P. Eumme, commander of the first division, arrived shortly before noon and immediately went into conference with city and county officials. General Marshall announced that the situation had been deuced from all angles and while disorders were not anticipated, it had been determined to maintain martial law here at least temporarily merely as a precautionary measure. Removal of the negro from the court house, he said, was not determined upon at the conference.

WORKMAN INJURED IN A CAVE-IN

Excavating at Pharis Tire & Rubber Company—Had Leg Broken.

Henry A. Brown, carpenter of 177 Hancock street, excavating at the Pharis Tire and Rubber company was buried in a cave-in at the plant this afternoon.

Brown just went to work this morning and the accident happened at 1:15 o'clock. The Bradley ambulance was called after the man had been dug out by fellow employees and he was taken to the City Hospital. It is thought he suffered a broken leg and other injuries.

ADA SCHOOLS CLOSE TO PREVENT INFLUENZA

Adm. O. Feb. 10.—To prevent the further spread of influenza the public schools here have been closed for the remainder of the week. Closures are being held at Ohio Northern university as there is no great amount of illness among the college students.

STRIKE ORDER PRECIPITATES A CRITICAL PHASE

Brotherhood of Trainmen Strike Looms Unless Demands Met.

LEE SERVES NOTICE THAT MEN INSIST ON EARLY ANSWER

Administration Officials Understand Strike Order Is Being Taken.

Washington, Feb. 10.—Wage negotiations of the railway employees with Director General Hines reached a critical stage today, and in so far as the Brotherhood of Railway Trainmen is concerned, a strike loomed unless "pending" demands are satisfactorily settled.

W. C. Lee, president of the union, has served notice on Mr. Hines that his men are "very insistent and must have a definite answer to this." Mr. Hines replied that no statement of decision could be made until he had again talked with the whole body of labor representatives.

Mr. Hines made a tentative appointment with Mr. Lee for late today to consider the trainmen's demands.

Railroad administration officials understand that a strike vote is being taken by the trainmen. It was admitted that Mr. Lee had insisted on the director general on January 23 of the union's intention to invalidate its wage agreement of the prescribed 30 days' notice. On that basis, it was presumed that the union would answer to the reiterated wage grievances February 23, less than a week in advance of the roads return to private control. It is understood that Mr. Lee has not the support of the other trainmen's unions in enforcing the wage demands with the strike weapon. Most of those attending the conference here, however, were silent on this question, but some of the first to receive Mr. Hines full proposal before determining their future course.

The threatened strike of the trainmen, which the strike order issued by the Brotherhood of Railway Trainmen employees has created a situation which officials regard as critical. Mr. Hines had a long discussion last night with Secretary of War D. H. Garrison, who presented the whole matter to President Wilson today.

White House and railroad administration officials regard "as most important" the railroad situation precipitated by the orders for a strike January 17, issued by officers of the Brotherhood of Maintenance of Way employees.

Secretary Tamm will see President Wilson today to lay before him the matter. (Continued on Page 2, Col. 3)

TWO ITALIANS GO TO PENITENTIARY

Cappillino and Marinetti After Entering Plea of Guilty Sentenced Today By Judge Fulton.

Joseph Cappillino and Frank Marinetti, carrying concealed weapons, were sentenced today to the penitentiary for an indeterminate term by Judge T. B. Fulton of the common pleas court this morning.

The men with Joe Latella and Nick Debellos were arrested upon affidavits of Valentin Pattata, who charged that they attempted to obtain money from him by threats of killing him, and that he had previously paid them \$50.

The indictment was returned by Judge Tamm and an affidavit was filed charging them with carrying concealed weapons. The three pleaded guilty to the indictments.

Sentenced to the penitentiary, the other two being sentenced this morning. They will be taken to Columbus tomorrow by Sheriff A. E. Bryan.

The case against Debellos, charged with attempt to extort, was continued yesterday but was continued until the April term. He is out on bail in the sum of \$2,000 until that time.

SIMS DENIES SOME OF THE CHARGES MADE

Washington, Feb. 10.—Rear Admiral William S. Sims denied today before the senate committee investigating naval awards that in conversations with Representative Byrnes, Democrat, of South Carolina, and other members of congress he had suggested that the American's efforts in the war. The admiral said Mr. Byrnes "must either have misunderstood me or confused the remarks to him by many people he talked to in Europe."

He added that he did attempt to correct the idea in the minds of American visitors that the United States were "winning the war because this situation was hurting us as well as them."

"They knew it was not true, and they knew we knew it was not true," Admiral Sims declared. "I am surprised that I should be quoted as saying the merchant marine should be sent to Great Britain and the United States should not develop a merchant fleet, because I never held any opinion on that subject."

CONGRESSMAN COOPER TO GEORGE WASHINGTON

Youngstown, Feb. 10.—Congressman John J. Cooper, Republican, formally announced his candidacy for re-nomination as congressman from the 19th Ohio district.

Chicago—Arthur J. Conway announced plans for reorganization of business interests from general banking trust work.

DR. SPARKS HEAD OF LANCASTER M. E. DISTRICT

Resigns Pastorate of First
Church To Succeed Late
Dr. Locke—Rev. McCormick
Comes to Newark.

Dr. L. C. Sparks, pastor of the First Methodist Episcopal church of this city for the past 18 years, has been appointed superintendent of the Lancaster district, succeeding the late Rev. T. W. Locke. The appointment was announced late yesterday by Bishop McDowell of Washington, D. C.

Rev. Ira McCormick, head of the federation of churches in Columbus will succeed Rev. Sparks, beginning his pastorate March 1, but may possibly come to this city before that date.

Rev. Sparks will have his headquarters in Columbus and will have charge of 36 churches in the Lancaster district, his duties being principally with the official life of the church. He and his family will move to the Capital City just as final arrangements can be completed and the health of his daughter will permit, although his connection with the First church will not expire until the last of this month.

OVERSELL THEATER FOR MINSTREL SHOW

Members of the local order of Elks have oversold the theater for their minstrel entertainment Thursday and Friday evening and as a consequence several hundreds of dollars will have to be refunded. Manager George M. Penberg, has been driven to distraction with a request for tickets and hundreds of applications yesterday and today had to be refused. The minstrel could have been given for three nights to capacity houses, but arrangements were only made for the two. The members of the minstrel committee regret very much that many will be unable to witness this year's entertainment who had purchased tickets or who had expected to be present.

YOUNG WOMEN FIGHT OVER MAN

Miss Irene Flint was assessed a fine of \$1 and the costs in municipal court today on the charge of assault and battery, preferred by Miss Kathryn Miller. The young women are employed in a West Newark factory and it is alleged were fond of the same young man. It was stated that Miss Flint invited Miss Miller for a walk and then the quarrel started which resulted in the latter receiving a number of scratches and bruises.

PRACTICAL NURSES ASKED TO REGISTER

It is requested that all practical nurses of the city register with the Red Cross. This can be done by telephoning headquarters in the Trust building, the number being 1876. The office is open from 8 a. m. to 5 p. m. If the nurses will comply with this request it will be appreciated.

STRIKE ORDER

(Continued From Page 1)

ter, emphasizing the possibility that this strike may be the opening wedge for a general strike of all railroad employees should the wage demands be refused by Director General Hines at his conference with union officials now in progress.

Mr. Hines is understood to have conferred with Secretary Tumulty for more than three hours last night outlining the situation for presentation to the President.

It was generally believed here today that Director General Hines would today before the representatives of the 200,000 railroad workers and inform them that their wage increase demands cannot be granted. He is willing to go no further, it is understood, than to adjust alleged inequalities in wages.

The employees' representatives are expected to come forward with a new proposition for the settlement of their case but none of them would discuss their plans prior to today's conference, which is expected to end the negotiations.

The director general is understood to hold to the position that it would be inadvisable for the railroad administration to order a general wage increase in view of the return of the lines to their private owners in less than three weeks. He is also said to believe that higher freight and passenger rates would inevitably follow an increase in wages.

GOING AHEAD WITH ORDER ISSUED MONDAY

Detroit, Mich., Feb. 10.—Executive officers of the United Brotherhood of Maintenance of Way Employees and Shop Laborers were going ahead with strike plans today while a committee of heads of various divisions of the union were enroute to Washington where they will make a final effort to call into conference by Director General Hines, to avert the walkout on February 17 of nearly 200,000 railway workers.

Allen E. Barker, president of the United Brotherhood would make no statement today in reply to the assertion by Mr. Hines that the strike will violate the union's wage agreement, but he recalled that a strike was voted last fall, not for November 1 and that it had been twice postponed since then in the hope that an agreement might be reached on a new wage scale and the government might be able to reduce the cost of living.

"We are determined to have fair increases now," said Barker.

The men involved are employed on American roads although the union has a membership of 28,000 in Canada.

The strike of the 200,000 members of the United Brotherhood of Maintenance of Way Employees and Railway Shop Laborers will go into effect February 17, as ordered, regardless of any steps the government may take, short of meeting the demands of the men for wage increases, President Barker of the United Brotherhood reiterated today.

"No court injunction can prevent the strike," Mr. Barker declared. "The strike order is out and the strike will go on."

take place unless Director General Hines meets our wage demands." Replying today to a statement attributed to Mr. Hines that the strike call issued yesterday was in violation of the union's wage agreement, Mr. Barker said:

"We have a 30 days' notice clause in our wage agreement. Notice, however, was served upon the railroad administration last July. It was renewed on December 30 both by letter and by personal conferences with the director general after we had held the strike in abeyance pending efforts of President Wilson to reduce the cost of living."

DOES NOT AFFECT CITY MACHINISTS

Strike Order However Will
Call Out Bridge and
Track Men and Laborers.

James P. Wolfe one of the officials of the Machinists' Union today stated that the machinists here would not be affected by the strike order of Allen E. Barker of Detroit, calling out on strike Feb. 17th the members of the Brotherhood of Maintenance of Way Employees and railway shop laborers.

A number of the men in this city are members of the Brotherhood of Bridge and Ship Laborers, the bridge carpenters of both the B. & O. and Pennsylvania and the section men and laborers on the track yards, numbering about 100. There are also quite a number of shop laborers affected but the exact number could not be ascertained.

The shop men or machinists committee had a conference with railroad heads at Washington last week but no advance has been granted, although the government promised an advance in case the high cost of living was not reduced.

An order has been posted in the local shops requesting the men to work nine hours a day and they state they are willing to obey the order providing it comes through the government railroad administration and is necessary.

CLEVELAND MAYOR VISITS NEWARK TODAY

Mayor Harry L. Davis of Cleveland arrived in the city Monday evening and registered at the Arcade Hotel, leaving this afternoon for Mt. Vernon, where he is scheduled to deliver an address this evening.

While here he was called upon by several officials but the object of his visit was to meet the Republican leaders for Mayor Davis is an avowed candidate for the Republican nomination for governor, and is making a swing around the south-eastern and central part of the state in the interest of his candidacy. Mayor Davis and Mayor Charles W. Montgomery, state central committeeman and G. O. P. leader in Lakeland county, were closeted for some time this morning and other well known Republicans called upon the distinguished Clevelander at his rooms in the Arcade.

Davis has a number of friends in this city among the local lodge of Elks, he having been prominent in Elksdom and delivered the dedicatory speech at the dedication of the Elk community house at Camp Sherman in September, 1918, which was attended by over 50 local members.

LUMBER COMPANY INCREASES CAPITAL

The P. Smith Sons Lumber company today increased their capitalization from \$50,000 to \$150,000. The Lake Lumber company, a subsidiary of the Smith company, also increased its capitalization from \$30,000 to \$50,000.

Officials of the P. Smith Sons company refused any information as to the reason for the increase when asked today.

TO ELECT HEALTH COMMISSIONER

District Board To Meet
Wednesday in Newark—
Granville News.

Granville, Feb. 10.—At the meeting of mayors of towns and chairmen of township boards called by Mayor C. D. Coons last Saturday in Newark the two vacancies in the district board of health were filled by the election of C. W. Moore of Madison and J. W. Hill of Hanover, the first to serve for two years, the latter for five years. The district board of health presented the expense budget for the year. Among those present at the meeting were Fred Wilson, county auditor; Charles L. Flory, prosecuting attorney, and Dr. Frank representing the state department of health. The board is called to meet Wednesday afternoon at 1 o'clock in the convention room of the Newark court house to approve the budget and to elect a health commissioner for the district. Mrs. Frank Ray represents Granville township on the board.

At its regular meeting last week the village council adopted resolutions requesting Charles L. Flory, city solicitor, to draw up a house numbering ordinance for the village of Granville.

Russell Currin, familiarly known as "Happy", has finished his course at Denison and is off for fresh fields to conquer. He goes from here to Baltimore, Md., and expects to return in June to receive his diploma from Alma Mater.

James Outcalt of Columbus, a former resident of Granville and local baseball star, was a week-end guest of his brother and sister, Mr. and Mrs. Harry Burkhart.

Mrs. L. A. Austin, who has been ill for the past few days, is reported as improving, though still in a weakened condition.

Prof. C. H. Dickerman was a guest at supper Sunday evening at the Fanny Doane Home for Missionaries' Children, and on invitation gave an interesting talk during the evening to the young people.

Mrs. Charles Watkins entertained with a week-end house party at their home in West Broadway in honor of their son, Earl Watkins, home from West Virginia for a visit.

Mr. and Mrs. Harold Voegel of Newark were honor guests at dinner Saturday evening at the home of Prof. and Mrs. August Odebrecht.

Miss Margaret Raine of Ohio Wesleyan university, who spent the semester vacation at the home of her uncle and aunt, Dr. and Mrs. L. D. Davis, has returned to Delaware. Mrs. Davis, who has been on the shut-in list for over a week is rapidly improving.

C. H. Graves, who has been laid up at his home in West Broadway with an attack of grip, is able to be about the house and expects to be out in a day or two.

The Fortnightly club will meet at the home of Mrs. C. D. Coons, Tuesday evening.

Mrs. Carl Weiant entertained the Mothers' club Monday evening at its regular meeting.

The Boy Scout anniversary will be observed in Granville this week. Beginning Sunday with attendance at their respective churches, in groups, the week will be marked by the "Good Turn," the Father-Son banquet in Newark, and other activities planned by Scout Master Dickerman and assistants.

At the Methodist church Sunday morning, the pastor, Rev. R. G. Bowden, received 12 into the membership of the church. On account of health conditions among members of his congregation, Mr. Bowden will hold the series of revival meetings later.

President Chamberlain addressed the Men's Brotherhood class of the Baptist church at 11:15 Sunday morning, bringing a message of inspiration from the meetings of the inter-church world survey he recently attended.

The semester recess was lightened in various ways by those remaining in the village and the dance in Assembly hall, Newark, was greatly enjoyed by the following young people in Newark and Granville: Misses Edna Griffith, Emma Pether, Bernadette Winters, Mary Carl, Dorothy Leadman, Elizabeth Evans, Anne Haynes, Cornelia Ellis, Helen Holmes, Josephine Darrow, Elizabeth Allen, Jane Nunn, Eleanor Gallagher, Ethel Erickel, Hazel Erickel, Helen Stump, Alice Leachman, Lillian Lindrooth, Eleanor Johnson, Dorothy Kuster, Thelma Mazzy, Nelle Morse, Helen Loose, Hannah Hill, Miss Steel, Mary Zoller, Messrs R. OIL AND GAS NOTES

The Ohio Cities Gas company has obtained two new locations and will start work on them in the near future. They are No. 1 on the U. G. Green farm Licking Co., Hopewell township, and the No. 2 on the James Gard farm, Licking Co., Hopewell township.

The Ohio Cities Gas Co. have resumed drilling on the McIntire farm in the Shreve field. Work was stopped at 2640 feet and has been resumed.

The F. M. Walter well in Bowling Green township was drilled to the Clinton formation and proved to be only a 1 1/2 barrel well. The Ohio Cities Co. intends to plug the well to the Berea and in the effort to get a larger production.

The Charter Oil Co. has the size complete on wells Nos. 150 and 152 and will begin drilling immediately. No. 150 of the same company is down 1930 feet.

No. 1 well on the Green Hill Stock farm of the Charter Oil Co. is down 390 feet and zoning in fine shape.

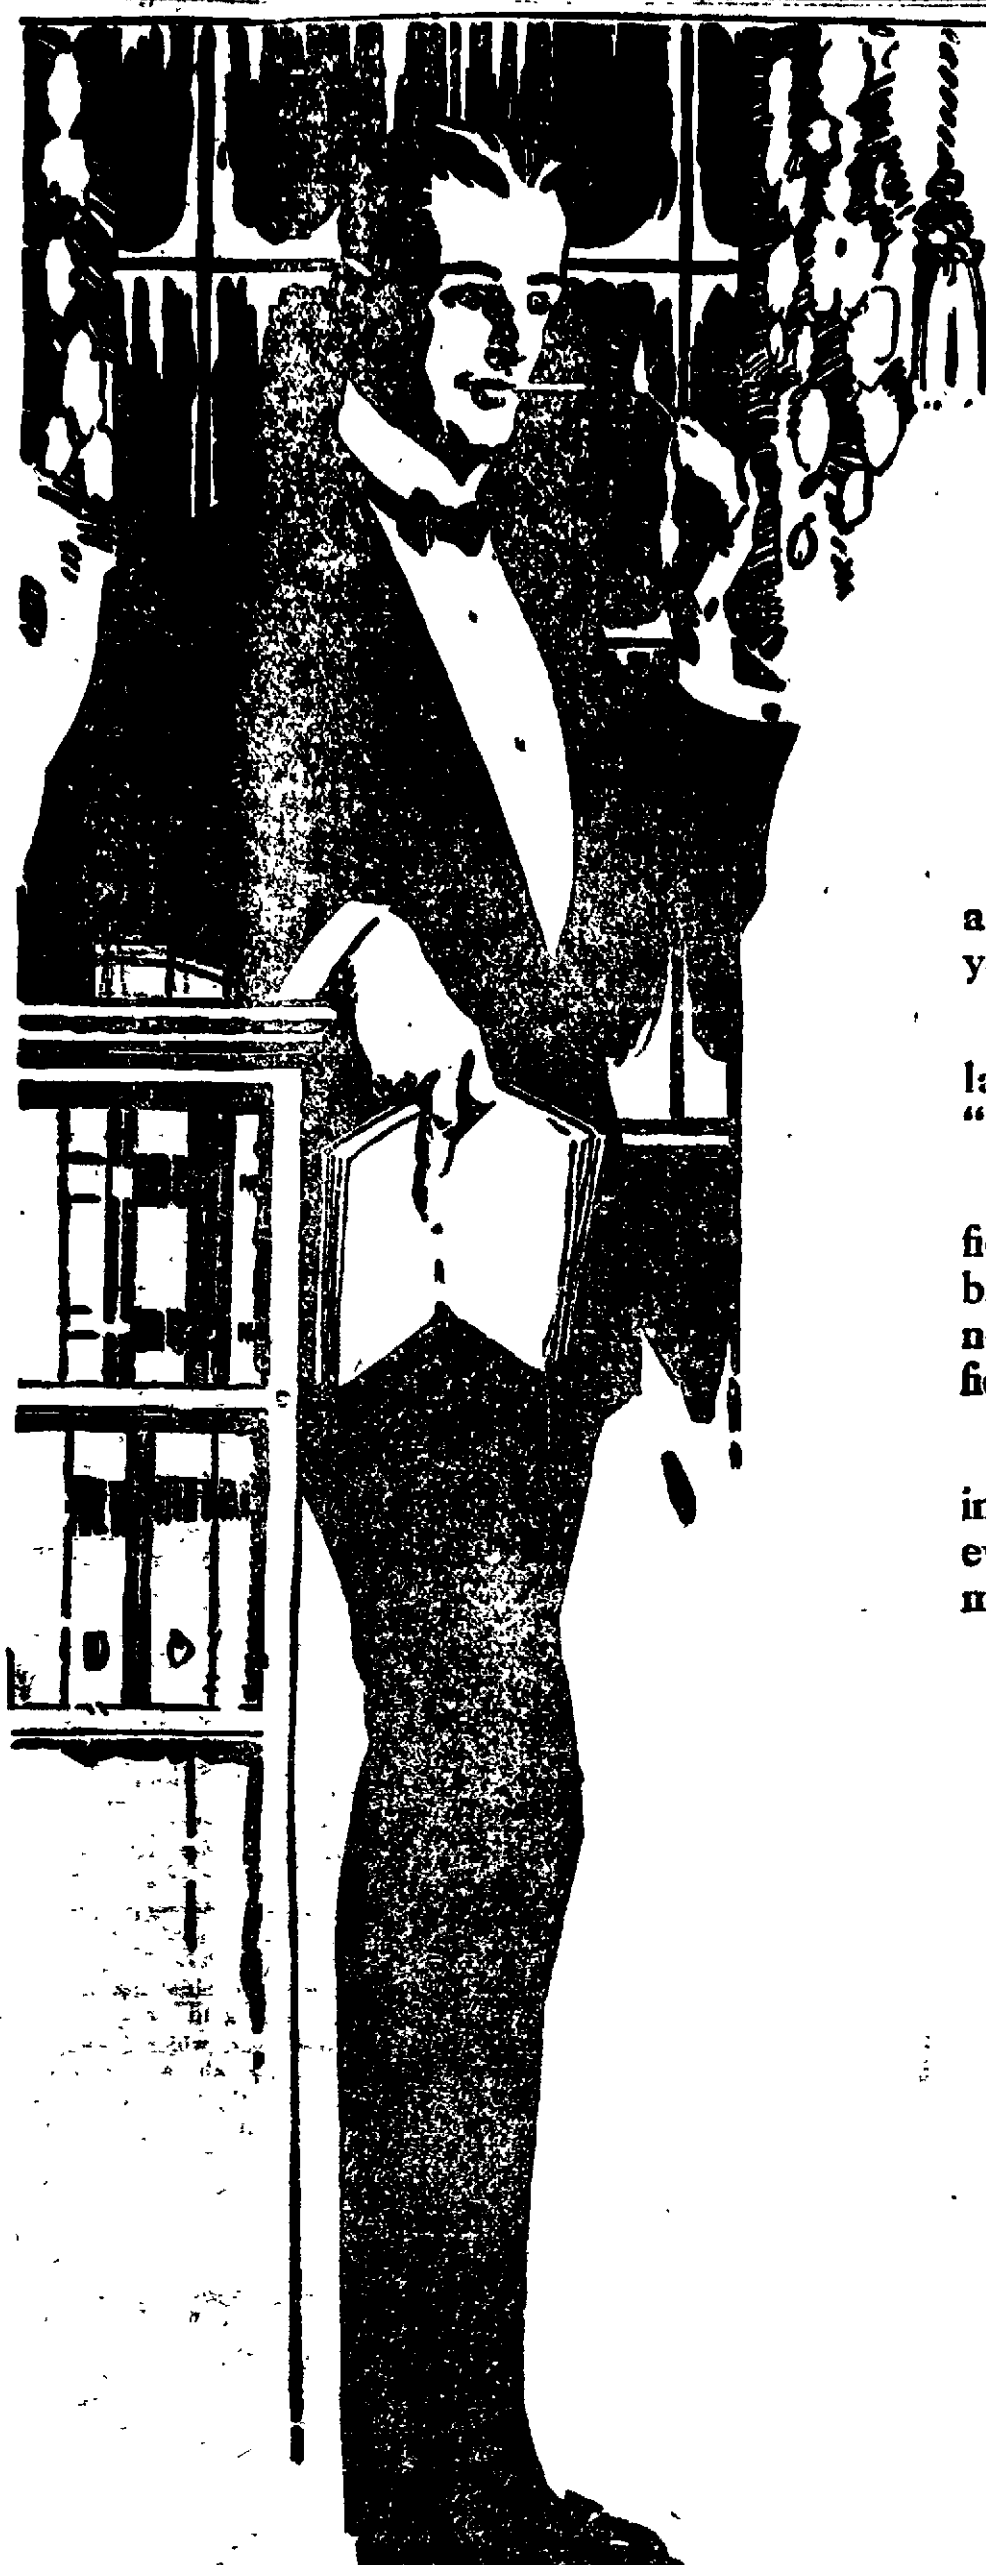

The Carbin Oval well of the Mingo Oil Co. in the Hocking field is down 2650 now.

The Sarah Dowley well Hocking Co. Gore field has her complete rig now and drilling operations will start in a few days.

The Plymouth Oil and Gas Co. No. 1 Correll in the Shreve field is down 2750 now and zoning fine.

The No. 1 Everly and No. 2 Zimmerman of the Medina Gas Co. are down 2250 and 2350 feet respectively.

FALLING? HERE'S WHERE IT SHOWS

Don't worry! Let "Danderine" save your hair and double its beauty

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of delightful "Danderine" at any drug store or toilet counter for a few cents, pour a little in your hair and rub it into the scalp. After several applications the hair usually stops coming out, and you can't find any dandruff. Your hair will grow strong, thick and long and appear soft, glossy and twice as beautiful and abundant. Try it!—Adv.

The cost of establishing the cantonments in the United States during the war ranged from \$6,708,000 to \$11,300,000 for each camp.

SCIATIC PAINS QUICKLY RELIEVED

Keep Sloan's, the World's Liniment handy to allay aches

THOUSANDS of men and women, when the least little rheumatic "crick" assails them, have Sloan's Liniment handy to knock it out. Popular a third of a century ago—far more popular today.

That's because it is so wonderfully helpful in relieving all external aches and pains—sciatica, lumbago, neuralgia, overstrained muscles, stiff joints, weather exposure results. A little is all that is necessary, for it soon penetrates without rubbing to the sore spot. Leaves no mark, stained skin, clogged pores. A bottle today is a wise precaution. Keep it handy.

ROOTED DISLIKE FOR JAPS

Chinese Look With Suspicious Eyes on Actions of the Subjects of the Mikado.

It was in the quaint, largest city of Foochow, China. The owners of my sedan chair pointed out to me a fine gray building against the hillside and exhorted their collective store of English trying to tell me what it was.

"Japanese hospital," said one, with a knowing air, as if he could say more if he would.

"To cure sick Japanese?" I asked, wondering whether there was a sufficiently large colony to support an institution of such size.

It took some time for this question to percolate through their heads. When at last it did so, there was more excitement in their answers than mere statements of facts would warrant.

"Japanese make Chinese well. Japanese say 'Chinese man—him very sick; must make well.'"

There was articulate sarcasm in their manner. At last one of them found the English he was after, and came out with it: "Japanese, no love Chinese man," he said. "Then why make Chinese man well?"

It seems that Japanese were beginning to realize that American philanthropy, represented by the missions and by the Rockefeller foundation, was creating goodwill for the United States. So they, too, decided to become philanthropists, and some fine Japanese hospitals for the Chinese were the result. The Chinese, however, still distrust the move. They cannot be sure that it has the genuine usefulness of Christian propaganda. They tell tales about machine guns concealed in the hospitals and soldiers who reconnoiter by night. I never heard these rumors substantiated, but I did meet a seemingly benevolent young surgeon and a Japanese nurse with the sweetest face in the world. —Marjorie Barstow in World Outlook.

WORE OLD DUTCH HEADGEAR

Rochester Woman Exalted Comment by Appearing in Court With Picturesque Adornment.

The costume of Mrs. Julia Vos in a Rochester court excited much attention. Mrs. Vos is the grandmother of two children, over whom there was litigation after the parting of their parents. The aged woman is a native of Friesland, Holland.

She appeared in court with an old Dutch headgear that would have delighted the heart of the painter Van Dyck. On the sides of her coiffeur were two thin gold plates bound tightly to her head which kept her hair pressed close above her ears. The plates are slightly concave, of the finest old burnished gold and fitted the contour of her head. Over her gold plates was an old Friesland lace bonnet, ivory colored from age, a treasure of her maiden days. The little frilled lace visor in front of the bonnet was a marvel of the lace maker's art, and a slash frill made of some stiffened material like malines net fanned out behind her neck and over her shoulders like a ruffe of Sir Walter Raleigh. In a quaint observance of the customs of the land of her adoption Mrs. Vos had surmounted her artistic headgear with a flagrantly black high-crowned bonnet. The old world touched the new on Mrs. Vos' head, with the artistic odds greatly against the new.

Search for Finer Wool.

The possibility of developing new sources of fine wool has been suggested. Referring in Nature to a new search for the golden fleece, Prof. J. C. Ewart of the University of Edinburgh states that the first domesticated sheep in Europe were undoubtedly introduced about 7000 B. C., and that nearly pure descendants of this ancient Neolithic breed—a urial, Ovis viignei—still survive on the small uninhabited island of Soay (Sheep island), near St. Kilda. Crosses between Soay and Southdown sheep yield excellent mutton, with wool of remarkable strength and quality; and the late discoveries indicate that crosses of the urial with other wild types may yield still finer and more beautiful wool. These discoveries include that of wool forming the inner coat of several of the wild sheep of Asia. This wool is longer than that of the Soay sheep, and decidedly finer than and quite as white as superfine Australian merino, regarded as the finest and whitest wool in the world.

Causes of Thunderstorms.

Two kinds of thunderstorms are generally recognized, one due to heat and usually local, and the other accompanying the squalls forming in the southern sectors of low pressure areas. A third type, known as cold, has been lately added by a French meteorologist. It occurs as cold air travels southward into a region of high temperature and authority upper winds. The clouds forming the southern limit of the cold wave develop thunderstorms, which are, carried northward by the upper south wind, this traveling backward through the zone of cold air.

THE TRAMP PRINTER.

Some poetic genius will some day write an epic about the tramp printer. Lacking this exalted muse, the editorial chronicler of the Advocate should say a word about the passing of the typical character, so rarely seen in the printing office of the present day.

The number of printers who used to roam over the country, taking a job for a few days or weeks, and finally disappearing for some grand bacchanalian celebration, must have been very considerable. Many of them were fellows of native ability. They possessed a winsome manner not wholly blurred over by the corrosions of dissipation. They could take almost any job in a newspaper office, from devil up to the editor in chief, and perform its functions with skill and distinction, for a few days.

Many of them had a wide range of literary allusion and much education and culture. They could express sensible opinions. They were not embittered by reverses of fortune, and I. W. W. agitators could have done nothing with them. They got about what they wanted out of life. Their roving natures were refreshed by constant change, and they could earn enough in half time for drink and a bed.

The tramp printer is probably gone never to return. He thrives only on easy laws and wide open lids. He is not likely to survive the dusty droughts of prohibition.

These are days when printers are well paid, frequently more than editors. The man who would give up this steady and lucrative job for the baffled *sydney* life of the old tramp printer, must have a very peculiar standard of human comfort. Today he can satisfy his desire for novelty by attending the movies, and he finds it much easier to see the world through the film play than from the interior of a jolting box car.

OIL FIELD HAZARDS.

(Pittsburgh Gazette Times)
There is no more legitimate business than the oil and gas industry, and it was never more alluring and actively pursued than it is today. This latter fact is disclosed in the January report of field operations compiled by the Oil City Derrick, which showed no less than 2,114 wells completed last month. But it is a hazardous business and it is extra-hazardous for the inexperienced. Of last month's completions, 220 were dry holes. Taking current cost of drilling materials, wages, transportation, etc., it is roughly estimated that the average cost of drilling a well is about \$20,000. In some fields it is considerably more than \$50,000, and in others less than \$10,000 each. At the average of \$20,000, the dry holes drilled last month represented a loss of \$44,000,000, or at the rate of more than \$100,000,000 a year.

It is not improbable that the percentage of loss in 1920 will increase, because, with crude petroleum quoted at the highest price in the history of the industry the incentive to discover new fields will be greater and the wild-cat will take a larger chance. Prior to the dissolution of the Standard Oil company a few years ago that wonderfully successful corporation pursued the policy of inducing the general public to take the hazards of pioneer work. When demand exceeded supply, surplus stocks of oil above ground were being exhausted, the Standard would raise the price of crude petroleum to a level where an individual operator or a group of operators would feel justified in taking a chance and there would be a revival of drilling activities. The Standard found from experience that it was cheaper to induce the public to take chances than to take them itself.

FINAL CASUALTY LIST.

(Columbus Sunday Dispatch)
The final casualty list for the American expeditionary forces has been given out by the war department. It does not differ very essentially from earlier lists, but it is well that we have it complete. It sets at rest all guessing and surmising as to our casualties. The list is summarized as follows: Killed in action, 132,970; died of disease, 25,738; died from accident and other causes, 512; returned to the United States, 215,423; missing in action, 3,301; total, 252,970.

Which One Can It Be?
It appears that one of our contrabands has aroused grave suspicions in the breast of Elze, who has expressed himself in the following lines:

At last, my dear, you are found out.
And you're a saucy little scout
For masquerading as a man
When you write verse, as you well can.

Today I saw you on the street,
And thought you looked so very sweet.
As modestly you walked along,
That I could not repress this song.

This lady—I shall not say who—
I thought how sweet 'twould be to woo;
From the nectar of her cherry lip
Even gods might well delight to sip.

Why she should hide her identity,
And attempt to hoodwink even me,
Is very much of a mystery.
Which can be solved only by—Elze.

Married Strangers
A powerful story dealing with a problem being worked out in thousands of American homes to-day—that of the husband and wife who find they grow apart while the man goes off to war.
By FRANCES DUVAL
Copyright, 1919, by The Wheeler Syndicate, Inc.

LXVIII.—A Borrowed Gown.
Keitha looked into her mirror with shining eyes. Bennett's whispered words had pleased her more than any praise she could remember. She tilted her chin defiantly at the wrath of a Puritanical ancestor that lurked in her conscience. "I wonder why I told that deliberate falsehood to shield him?" she asked herself curiously. "If he really is guilty of an affair with this girl, as everything should seem to indicate, by all rights, I should be furious and resentful. Is there any position more unenviable than to be the wife of an attractive, faithless man? Keitha, you've traveled far from the ideal pathway you set for yourself."

At All Drug StoresGIVEN UP TO DIE OF
STOMACH TROUBLEBut Mr. Baker is well now. Feels
like he did at sixteen.

"One year ago in September I was taken down; couldn't eat, sleep or work. The doctors didn't know exactly what was the matter. Some said I had catarrhal gastritis, and others, cancer. Anyway, I was given up to die."

"A friend persuaded me to try Milk's Emulsion. In 2 or 3 weeks, the soreness went out of my lungs, the pains vanished from between my shoulders, and I began to eat and sleep, and work. Also the miserable lonesome feeling due to tear loss and that heavy weight in the left side of my stomach, that hung like a huge iron ball, disappeared. By the time I had taken 21 bottles, I could eat anything, sleep like an infant, and the old-time vim came back. I felt like I did at sixteen."

Get the stomach and bowels working right, and most ailments start to leave. Milk's Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food, and builds up strength. Milk's Emulsion is strongly recommended to those whose sickness has weakened, and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten as a spoonful of ice cream. Truly wonderful for weak, sickly children.

No matter how severe your case, you are urged to try Milk's Emulsion under this guarantee: Take six bottles with you, use it according to directions, and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milk's Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.

Guaranteed by W. A. Erman, T. J. Evans, West End Pharmacy.

HERE'S WAY TO BRING
YOUR STOMACH TO TIME

If your stomach is undermining your health, you can stop it. Set the stomach, liver and bowels working together by the old-time successful treatment of Dr. Parker, of Athens, Ohio. He has brought health to thousands who suffered from indigestion and constipation. You will be quickly freed from headaches, stomach pains, offensive breath, bloated, nervous, nervousness, dizziness and kindred ills due to stomach and bowel disorders if you take this favorite treatment. Ask your druggist for Dr. Parker's Treatment for Indigestion and Constipation. It is guaranteed to relieve you or your \$1.25 will be refunded. The Parker Medicine Co., Athens, Ohio.

Ends Stubborn Coughs
in a HurryFor real effectiveness, this old
remedy must be used
Bottle and candy prepared.

You'll never know how quickly a bad cough can be conquered, until you try this famous old home-made remedy. Anyone who has coughed all day and all night, will say that the immediate relief given is like magic. It takes but a moment to prepare, and really there is nothing better for coughs. Into a pint bottle, put 2 1/2 ounces of Pinex; then add plain granulated sugar syrup to make a full pint. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, the full pint saves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly, and tastes pleasant—children like it.

You can feel this take hold instantly, soothing and healing the membrane in all the air passages. It promptly loosens a dry, tight cough, and soon you will notice the phlegm thin out and then disappear altogether. A day's use will usually break up an ordinary throat or chest cold, and it is also splendid for bronchitis, croup, hoarseness, and bronchial asthma.

Pinex is a most valuable concentrated compound of genuine Norway pine extract. The most reliable remedy for throat and chest ailments.

To avoid disappointment ask your druggist for "2 1/2 ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute relief or money refunded. The Pinex Co., Ft. Wayne, Ind.

SOCIAL AFFAIRS

The members of the Social Hour club delightfully entertained their husbands with a three course dinner at the home of Mr. and Mrs. Wilber Gault in Boylston avenue. Mrs. W. A. Roubough and Mr. Clarence Wilson were the prize winners in a contest.

The Eliza Scott Sunday school class of the First M. E. church will meet at the home of Mrs. W. H. Miles, 377 Madison avenue, Wednesday afternoon, February 11, at 2:30 o'clock. Election of officers.

One hundred guests were entertained by the Catholic Young Women's club at the O'Neil dining room in the Warden Hotel Monday evening. After an informal reception in the parlors of the hotel from 3 to 5:30 o'clock when the members of the organization greeted their guests, the banquet was served. The long tables were centered with clusters of spring flowers, narcissus, daffodils and jonquills, and an attractive four course menu was served.

Miss Gertrude Roll presided as toastmistress, and introduced Miss Ann Sheridan, as the first speaker. Miss Sheridan gave a resume of the activities of the club, and outlined what an organization would mean to the young women of the city, especially the young business women. The aim of the club is to help others and to profit by the camaraderie of the membership. Starting with a membership of fifty the aim is to greatly enlarge the organization.

Other speakers were Miss Katherine Davis, Miss Mame Kerrigan, and Miss Sue Della.

A delightful solo number was sung by Miss Irene Winters, with violin and piano accompaniment.

The banquet was the first of a number of entertainments which will be arranged by the club.

Robert A. Gulick, director of sales of The Newark Stamping and Foundry company, has returned from Akron where he spent the week-end with his family.

The Christomatean Bible class will meet this evening at the home of Mrs. Edna Kean, 363 Hudson avenue.

Card of Thanks.

I wish to thank the friends and neighbors for their kindness during the illness and at the death of my beloved wife. I also extend thanks for the many beautiful floral offerings and to Rev. Mr. Hazlett for his kind and sympathetic words. G. N. Hupp. 2-10-11

Milady's Boudoir

Nerves Spoil Beauty. If women built up their bodies by out of door exercise and, at the same time, cared for their complexions and their hair, they would be the most beautiful women in the world. Women always, however, persist in doing many things every day which, on account of the nervous strain, take away all the good things exercise do.

For instance, many will persist in doing their shopping in the crowded hours of the day when the mental tension of the stores is at its height. Buying goods and waiting for change in such an atmosphere brings a quickener to the mouth and wrinkles to the brow that would never appear if she did not take part in these shopping orgies. Many women never rest. They read exciting literature, watch intense drama and play bridge day after day as though their lives depended upon these pursuits.

The nerves are the only things that prevent many women from being beautiful. You may believe, because the French woman is slight and thin, that she, too, is a bundle of nerves, but that is not true. She is temperamental and her emotions are near the surface, but her nerves never leave her. She never worries from one day to another. You must learn to control your mind when there is need of physical strength for worry only too quickly leaves its stamp on the features. If you have missed a train, don't pace the platform and search the face of the clock every minute. This mental worry will not increase the steam pressure or hurry the next train up a bit.

Do your best to cultivate repose and you will soon conquer the national weakness. Follow the English habit of taking long cross country walks in the open air, and study the French way of life. The combination of these should give you real claims to beauty.

Our Boys and Girls

Do you notice how hard it is to get the children and the older children especially out of bed these mornings? How listlessly they go about their task of getting dressed? And how often they eat but little and how indifferently they regard the food you place before them?

It all means a natural reaction from speeding up in the schoolroom. They are suffering from brain lag, because under the present system of education, the nervous system is overworked. Children are keyed up in the classroom and then burdened with home work. The children must keep up with their class, and for many it means a great deal of worry.

From now on until their next vacation see that your children get more sleep, and serve them a bit lighter food. Avoid stimulating dishes and see that they drink at least one glass of milk each day. Vegetables should be given oftener and they should be vegetables that are rich in iron. Let the children eat all the apples that they want and give them one orange, or more if they like them, a day.

Everyday Etiquette

"In sending out wedding invitations, how should I address a lady friend and her gentleman friend?" asked Alice.

"Send a separate invitation to each of the two parties, just as though they did not know each other," said her aunt.

AMUSEMENTS

AUDITORIUM

Out of a Clear Sky.

The Auditorium held large crowds yesterday and Miss Clark, Dainty Marguerite, surely did hold the crowds and her work as The Countess gave great satisfaction. The story of "Out of a Clear Sky" is as follows:

Celeste, Countess of Bawek of Krymn, a diminutive but self-willed maiden of high degree, refuses to be used as a pawn of state to further the political ambitions of her scheming Uncle Dyrek who orders her to marry a German Prince and thereby aid his plans. When he insists Celeste slips away with her governess and returns to New York. Uncle Dyrek follows her and begs her to return to Belgium, but she refuses to comply with this demand. She goes to Tennessee, followed by her persistent relative and ultimately finds herself, alone and friendless, in a mountain gorge. A prey to despair, she weeps and is discovered by Robert Lawrence, a wealthy land owner who, after hearing her story, promises to help her. He takes her to the cabin of a friend in a fierce storm and learning that Uncle Dyrek is in the vicinity, he leaves Celeste to see that worthy and

Cast undoubtedly has real significance yet it often happens that later players with greater success than those who "created" the roles, and those often add to the impersonations touches of art that greatly enhance their worth. Ralph Dunbar is keenly alert in this matter and being personally acquainted with thousands of singers and players in all parts of America, is thus enabled to select his cast with unerring accuracy. This accounts for his having such an exceptional cast in "The Chocolate Soldier," which comes to the Auditorium next week.

In this particular instance, however, five of his important stars were players with the first American tour of "The Chocolate Soldier" under Mr. Whitney's management, and are considered the very finest interpreters of their several parts which have ever essayed them.

Particular mention is made of George O'Donnell, who plays "Col. Popoff," the errant militarist with a fondness for comely femininity. The "Colonel's" interesting escapades are a sure cure for the blues.

to those of the late, lovely Miss Venus, is booked to appear in person today at the Lyric theater with the picture, "The Perfect Model."

Miss Hoffman is accompanied by a woman manager who handles all her business affairs. The manager is credited with being able to drive a closer contract than Elsie Janis' mother, who is the terror of producers. For her tour with this picture Miss Hoffman is said to be drawing a salary envelope staggering in size even in the film world of big salaries.

The production is presented under the direction of George Stockton. Coming for the last half of the week "The Price Women Pay," featuring Beatrice Michelena, preceded by a prologue with living characters with special scenery and electrical effects.

A special matinee for ladies only will be given tomorrow.

GRAND.

Douglas Fairbanks, appeared for the first time in his new picture "When the Clouds Roll By," at the Grand theater yesterday afternoon and evening. Before large crowds of people, who were delighted with the offering, this picture is from the Big Four studios. The story that is told in pictures is said by many to be better than anything Douglas has ever appeared in. "When the Clouds Roll By," will be

SCENE FROM "THE CHOCOLATE SOLDIER," WHICH APPEARS AT THE AUDITORIUM MONDAY, FEBRUARY 16

throw him off the scent. This feature is shown both today and tomorrow.

A Twilight Baby.

Some inside information on country town courtship is an interesting feature of "A Twilight Baby," Henry Lehrman's first comedy production for First National Exhibitors' Circuit, and is no wowing at the Auditorium theater.

To reveal the history of the birth of the twilight baby would be unfair to those on the Henry Lehrman comedy staff who doubtless spent weary hours thinking of ways and means of injecting the humor into this picture. It is not out of reason to say that the twilight baby, however, upon reaching manhood is serving time in a well guarded industry, thanks to his talent and indulgence in a practice known as "bootlegging." This is a real laugh show.

"The Boomerang."

To any one who witnesses a per-Winchell Smith and Victor Mapes comedy which David Belasco will present at the Auditorium for two performances Saturday, the fitness of Harry Hayden for the role of Budd Woodbridge, the lovable youth about whom the story revolves, must be apparent. For Mr. Hayden is the ideal type, and to anyone who is acquainted with Mr. Belasco's traditional discernment for casting a play, it would seem that this famous stage manager, has, in this instance, given another striking illustration of his almost uncanny perception for selecting just the right player. However, Mr. Belasco came near being disappointed in securing Hayden's services and if it hadn't been for the European War, this young actor would have given up his stage career and so would have missed the opportunity he realizes so fully in "The Boomerang."

"I had fully intended giving up acting," said Mr. Hayden recently "but given it up, in fact, and was content playing producing some plays I had in my possession, when the war came and caused me to change my plans. I am not what you might call an old man, but I have been on the stage a good many years and it has lost a lot of time it might still have if I had not begun my career at such an early age."

Mail orders are now being received with seats going on sale next Thursday at 10 a.m. This company as a rule seldom gives a matinee, but the management prevailed on Newark having a special Saturday matinee and the prices are placed within reach of all.

ALHAMBRA

Such a Pirate.

The Alhambra drew good crowds yesterday and Lila Lee, who is screened in the Paramount Picture "Such a Pirate" by James Oliver Curwood, author of the novel "Peggy" upon which this photoplay is based, made more than good.

This is her second Paramount picture and with the following great cast is sure to make Alhambra fans like it. The cast—Lila Lee, Theodore Roberts, Harrison Ford, Guy Oliver, For-

est Sebury, J. Parkes Jones, Adele Farrington and others. The last showings are seen this evening.

Daddy Long Legs.

Mary Pickford, known far and wide as America's Sweetheart, returns to Newark via the Alhambra and will be seen in a recent hit—"Daddy Long Legs." We do not have to dwell upon this for "Daddy Long Legs" was one of Miss Pickford's best photoplays. There will be no advance in Alhambra prices for this return engagement.

LYRIC

Gertrude Hoffmann.

Gertrude Hoffmann, called the modern Venus, because her measurements are said to be the closest modern approach

to those of the late, lovely Miss Venus, is booked to appear in person today at the Lyric theater with the picture, "The Perfect Model."

AT THE HARTMAN.

Julia Sanderson and Joseph Cawthorne are coming to Columbus. They will be seen in the widely heralded Dillingham musical comedy production, "The Canary," at the Hartman theater, Thursday, Friday and Saturday, Feb. 12, 13 and 14, following a six months' engagement in New York.

"The Canary" has been produced on a lavish scale, comparable with Fred Stone's big hit, "Jack O' Lantern" and vehicles for Elsie Janis, Raymond Hitchcock and other Dillingham stars. Miss Sanderson and Mr. Cawthorne have been costars for a number of years and "The Canary" rounds out a long series of successes. Miss Sanderson is the only ingenue appearing in musical comedy and as a comedian Mr. Cawthorne enjoys a distinction all his own. The producer has added several other members of a featured cast which includes Doyle and Dixon, conceded to be the most famous dancing team in America; Maude Eburne, noted character comedienne and others. The story of "The Canary" concerns the loss of a famous diamond known by that name.

On Monday, Feb. 15, the Hartman offers a return engagement of that comedy of comedies, "The Boomerang."

PRODIGES PROVE A PUZZLE

Psychological Experts Unable to Account for Their Amazing Prowess in England.

Infant prodigies are being discovered in England almost daily. Some connect this with the psychology of war. One of the youthful marvels is Pamela Bianco, a thirteen-year-old girl artist, whose drawings were given the place of honor in an exhibition at one of the principal London galleries.

Critics dealt with them quite seriously and said that the work was suggestive of Botticelli and some of the other old masters. Pamela is an Italian girl who was born in England and never had taken any drawing lessons.

Ronnie Routledge, four, little more than a baby, whose parents know nothing of music, has enjoyed six months of tuition on the violin. At the Grimsby College of Violinists recently he outranked 43 competitors, most of them in the twenties, and scored 119 points in a possible 120. Professor Danton describes him as a miracle.

Little Robbie Day, aged seven, of Brighton, son of a motor mechanic, has wonderful powers of clairvoyance, according to the Weekly Dispatch. Blindfolded, he described a number of articles. These included a treasury note (giving its color, numbers and writing on the back), the color and texture of a piece of fabric he had never seen, the correct answer to a complicated sum in mental arithmetic and figures written down at random.

After five minutes' test he complained of feeling icy cold. "I just see little pictures and I just say them," is Bobbie's explanation.

AMERICANS WILL BE THERE

Opportunities Offered in Abyssinia Are by No Means Likely to Be Long Overlooked.

After his visit to the United States one of the Abyssinian visitors admitted that he knew now why there were no Americans in Abyssinia. As he had seen him at home, the American, so the stranger from Abyssinia decided, is not given to slow and tedious traveling. He wants to get about quickly, and Abyssinia, with nothing faster than a pack mule, offers no inducements of rapid transportation. "That, it seems," said the Abyssinian, "has kept the American man out of our country. It is too bad. We need bridges like yours, we need streets like yours, and we need men like yours to direct the building of them." Commercially and industrially, however, the truth probably is that Abyssinia has not been "discovered," and when that happens the American man will come and build his own rapid transportation. The mere statement that the capital, Addis Ababa, is a city of some 40,000 inhabitants and no railway connection with the outside world is a temptation.—Christian Science Monitor.

Birds Have Right of Way.
Fowl have the right of way in air, warns the director of military aeronautics. This is justice indeed, since birds flew first.

But this is not all. Recently many towns along the Atlantic coast have been visited with dead bird showers. Aviators flying by a town would see a flock of wild fowl coming their way. They would set their machine guns and let the bullets fly.

Presently a prominent citizen walking below would be hit with a large, bloody bird. He complained to the town, and the town complained to the department of agriculture. Then the federal migratory bird law between the United States and Great Britain was referred to, and it was found that shooting birds from airplanes is unlawful.

The Wrong Man.
When I was an eighteen-year-old girl I was keeping house in my mother's absence and received word from an old friend of the family, of whom I was very fond, that he was to be our guest for a day or two. Toward evening when the doorbell rang I told our little colored maid to answer it and show Mr. Blank into the living room.

I rushed into the room which was half dark, some minutes later and threw my arms around the gentleman who rose to greet me and kissed him soundly only to hear a strange voice say, "I called to see if I could interest you in a wonderful set of books I am showing today."

I backed to the light and turned it on to view a perfect stranger—a book agent. But Mr. Blank's timely arrival just then saved a little of my embarrassing explanation.—Chicago Tribune.

Triple Tone Electric Bell.
Three separate and distinct sounds are given by an electric bell which operates on ordinary lighting current by means of a transformer. In the home the bell can be connected with push buttons installed at three different doors—front, kitchen and side, for example. When one button is pressed a clear ring results, when the second is operated a buzz is produced, and when the third button is pushed a combination buzz and ring results. In the office or shop this bell will prove most useful, since it can be used to call three different persons without necessitating them to count the number of rings, as must often be done when the customary signaling is employed. This bell has no contact points to burn out and so batteries to replace.

A Long Bore.
The fellow who calls here has many shortcomings. Yes, and his worst shortcomings are his long goings.—Baltimore American.

ZANESVILLE EAGLES AND THEIR DEGREE TEAM WILL COME TO NEWARK

Officers and Degree Team of Zanesville Aerie of Eagles

Sunday, February 22nd, Newark Eagles will again witness the splendid work of Zanesville's degree team which is coming to Newark to exemplify the ritual and obligate the large class of candidates now being formed by the campaign committee. The large banquet hall in K. of L. building has been secured and there will be an abundance of room for the entire membership, candidates and degree team work.

Since December 1st the Eagles' campaign committee has made a drive for 600 new members and of this number 300 applications have been received and a class of 150 was initiated on December 28th. The February class will be equally as large. Applicants who have not as yet been examined are requested to call at Dr. C. F. Leger's office not later than February 16 for final examination that they may be obligated with the February class.

Hair Often Ruined By Careless Washing

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is Mul-sified coconut oil shampoo (which is pure and greaseless), and is better than anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get Mul-sified coconut oil shampoo at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

Wounds From Rusty Nails Dangerous

Houstonia Your Safeguard

Serious results, through blood poisoning, often occur from scratches, cuts or wounds from rusty nails or other metal. Don't run this danger. Protect yourself by having a bottle of Houstonia always at hand for emergency use.

Dean McKillip, well-known farmer of Clark Co., Ohio, says: "I stepped on a rusty nail which extended halfway through my foot. I applied Houstonia to the wound and banded the foot. In a short time the pain got easier. After five days I did not limp and the wound healed nicely."

Houstonia (The Original Jones' Liniment) may be freely applied to open cuts, abrasions or burns without fear. It soothes while it heals. At your druggist. 25c, 50c and \$1.00 sizes. Be sure you get the genuine House-tone-a-h with Dr. Jones' picture on the yellow wrapper. Dr. J. C. Jones Co., S. Charleston, O.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c.

MARIETTA REAL ESTATE DEALER LAUDS TRUTONA

"I Simply Feel Like a New Man Since Taking It" Mr. Neece Declares.

Marietta, O., Feb. 9.—"I simply feel like a new man—just years younger, since I have taken Trutona and 18, positive I'll live many years longer now because of the benefits that this tonic has given me." S. H. Neece, 79 years old, a well known Marietta real estate agent who lives at 814 Front Street, said a few days ago.

"I'm a veteran of the Civil War," Mr. Neece continued "and it was while in the service that I first began to have trouble with my liver and kidneys. I've suffered from this trouble more or less ever since. I suffered terrible pains in my back and sides. Pain also came into my forehead and into the back of my neck. My appetite was very poor and the food that I ate didn't digest properly. I often experienced spells of dizziness. I was usually constipated, too, having to take laxatives most all the time."

"Well, sir, since taking Trutona I'm convinced that I'll live past the 90 year mark. I want all my friends to know that this medicine has done for me. The pains in my back and head have all left me now and my sight is much clearer than before. My kidneys don't give me the trouble they did before I took Trutona. I simply can't get enough to eat nowadays and I sleep much better too. I am not constipated any more. Trutona has made a different man of me and I can truthfully say that it is the best medicine that I have ever taken in my life. I want the people in Marietta and elsewhere to know what Trutona has done for me."

Trutona is now being introduced and explained in Newark at W. A. Erman's Drug Store.—Adv.

ARISES MORNINGS REFRESHED AFTER GOOD NIGHT'S SLEEP

Could Not Sleep Well Nights, Appetite Was Poor Before He Took Earle's Hypo-Cod.

FEELING MUCH STRONGER NOW.

"I did not sleep good very often, only three or four hours in a whole night and would get up in the morning feeling as bad as when I went to bed. I was living on eggs and milk most of the time and also suffered from a severe cold that I had several months ago and always had a severe burning sensation in my throat, but I am feeling so much stronger and better now since taking Earle's Hypo-Cod. I bought it because I saw it advertised, and I got up in the morning feeling fine, lay down at night and sleep straight through and enjoy it, and my cold and throat trouble is practically gone and I have an excellent appetite, can just eat anything at all."

"I had tried several different remedies, but could not get anything that would give results until I started taking Earle's Hypo-Cod," declared Mr. Ernest Morse, 159 Hamilton Ave., Columbus, Ohio.

There is hardly anything more disagreeable than to be unable to sleep well at night and get up in the morning as tired as when you went to bed. It makes life seem almost not worth living and as a rule one's health is on a steady decline, their appetite becomes poor, their digestion becomes bad, nervousness often follows and unless a good tonic is taken many other ailments are liable to follow. At a critical time like this one should take a very powerful tonic, to build them up quickly, and fortify their system against other ills. Often times though a strong tonic does not agree with their weakened stomach, but if they will go to the drug store and secure a couple bottles of Earle's Hypo-Cod like thousands are doing, they will find they will not be troubled by a disagreeable tasting medicine, but very pleasant, yet powerful according to the statements of doctors, druggists, chemists, nurses, and users. Read the formula on a bottle of Earle's Hypo-Cod at your druggist today.

Earle's Hypo-Cod is sold here by all good druggists and the leading grocers in all nearby towns. Price \$1.25, plus 5c war tax.—Adv.

Three Drop Corn Killer

"Get-It" Stops Pain Immediately and Corns Go Quick.

The way to handle corns is the tried and proven "Get-It" way—the way that millions have found quickest, easiest, safest and most reliable.

A few drops of "Get-It" knocks the hurt out of any corn at once and soon loosens it so it lifts right off without any feeling. Oh, what comfort! How grand to walk and dance and jump without a single twinge! Why not? "Get-It" is the never failing, guaranteed money-back corn remover, costs but a trifle at any drug store. Mfd by E. Lawrence & Co., Chicago.

WAS ALWAYS POPULAR GAME

Those Who Think There is Anything New in Profitless Have Another Game Coming.

The high cost of living was just as much a problem in Elizabethan times as it is today. The Rev. William Harrison, as quaint a gossip as Pepys, and equally gifted as a chronicler, complained that magistrates in his day winked at merchants who charged more for commodities than they were permitted by law to charge. In that day, as in this, "bodgers"—this delightfully descriptive word is of the dome's own coinage—were allowed "to burn up corn and raise the price of it; to carry it home unsold, or to a distant market, if they want more money than the buyer likes to pay; nay, they've leave to export it for the benefit of enemies abroad, so as to make more profit."

During the world war there was much talk of certain Americans who deliberately destroyed carloads of potatoes, cabbages and other vegetables and foodstuffs in order to raise the prices of these commodities. Same old story. There's nothing new, remarks J. N. H., in Rochester Post-Express.

Again, to hark back to good Canon Harrison, "pestiferous purveyors buy up eggs, chickens, bacon, etc.; butter men travel about and buy up butter at farmers' houses, and have raised its price from 18d to 40d a gallon. These things are ill for the buyer and the poor man, and should not be allowed."

After all about the only thing that is true is that there is no new thing under the sun. Like the poor, the profiteer is always with us.

TAX EXPERTS LOSING SLEEP

Question, "When is a Girl a Miss?" is Puzzling Bureau of Internal Revenue.

The other day Lew Hahn, executive secretary of the National Retail Dry Goods association, took the joy out of life for the experts of the bureau of internal revenue when he asked whether corsets were underwear. Now he has gone and done it again, the query this time being:

"When does a girl become a miss?" Framers of the new revenue tax law included in the list of taxable "women's and misses' wearing apparel." Experts of the bureau, Mr. Hahn says, have informed retailers that no tax is to be collected on wearing apparel for girls.

Retailers say there are hundreds and hundreds of misses, and quite a few married women, who are so petite that they can still wear, and therefore buy, girls' clothes. Does the fact that such articles of clothing are to be worn by women of mature years change the nature of the apparel in the eyes of the law; or do garments designed for girls remain girls' wear, regardless of the age of those who buy and wear them? This is the puzzle Mr. Hahn has put up to the bureau experts.

A Waiting Game.

"Suppose you wait here in this comfortable seat while I match these two samples of ribbon," said Mrs. Simson sweetly to her husband, who had been entrapped into going shopping with her.

When she came back she said contentedly: "Have I kept you waiting an unparadiseable long time, you poor dear?"

"Oh, I haven't minded it," he said cheerfully. "I just jumped on a car and ran up to the football match, and then I took a little spin in Jack Dance's new car. Did you match the samples?"

"One of them. It's so provoking. I shall have to come in again tomorrow, for they are just closing the shop,"—London Ideas.

Tuba May Strike Next.

Add to the strikes for higher wages that of negro washerwomen of Louisville.

Aunt Katie (last name not known even to patrons) was asked the other day if she could do a washing the next day.

"Deed no, chile," was the reply. "An' any more washings I do is goin' to cost yuh ten cents moah," she added.

Pressed for an explanation, Aunt Katie said that she and "several other washer ladies are goin' on a picnic to-day and won't do no washin' for no-buddy."

"Furdermoah, dis ten cents moah goes all the time now. De street car men is gonna git moah den dat fer strikin', and so is us," was her explanation.—Louisville Courier-Journal.

Medical Education in China.

The China medical board of the Rockefeller foundation will soon have in operation in Peking a splendid institution for medical research and teaching—the Peking Union Medical college. A group of 15 buildings is in course of construction. On account of their green-tiled roofs the new buildings have already acquired the name of "the Green City." The college will open in the autumn of 1926. A preparatory school was opened two years ago. It is expected that the whole establishment, including a new hospital, will be running by the end of 1926. The board plans to open another medical institution in Shanghai.—Scientific American.
